Paris, October 4 (RHC) Cubans living abroad will participate on Saturday in a virtual forum called Poniéndole corazón a Cuba to ratify their support for the island in the face of aggression and attempts to destabilize it, organizers said.

The call was launched by the initiative Juntos por Cuba (Together for Cuba), a YouTube channel with weekly broadcasts created to fight disinformation and omissions, which identifies itself with the slogan Patria o Muerte (Homeland or Death) and defends Cuban citizenship and love among those who live inside and outside the largest of the Caribbean island.

According to what the promoters of the virtual meeting told Prensa Latina, on October 9, they will address the actions to support the island from abroad, among them the battle in social media networks and the campaigns to send donations, amid the impact of the Covid-19 pandemic and the lifting of the U.S. blockade on the island.
