**During the meeting the parties discussed ways to expand cooperation in different spheres of development.**

Nursultan, Feb 4 (RHC) Kazakhstan's Deputy Prime Minister and Foreign Minister Muxtar Tleuberdi and Cuban Ambassador to Kazakhstan Emilio Pevida noted the current state and prospects of bilateral relations.

During the meeting at the headquarters of Nursultan's Ministry of Foreign Affairs, the parties discussed ways to expand cooperation in different spheres of development.

The Kazakh Foreign Minister highlighted mutual collaboration in international organizations and presented the ambassador with a diploma of recognition for his contribution to strengthening ties between the two countries.

For his part, the Cuban diplomat expressed gratitude for the support of the people and government of Kazakhstan for the just struggle of his country against the criminal economic, commercial and financial blockade of the United States for more than six decades.

He underscored the illegality of Washington's policy against the Antillean nation and called attention to the rejection it provokes in the vast majority of the international community, which has condemned it for 29 consecutive years in the United Nations General Assembly.

Pevida highlighted the hospitality received during his diplomatic mission in this Eurasian nation and the progress made in various areas of bilateral cooperation in recent years.

He said that the interaction with Kazakhstan reached the areas of health, biotechnology, pharmaceutical industry, tourism, sports, culture, legal assistance, as well as the expansion of the legal basis for cooperation between the chambers of commerce and the attorney general's offices of both countries.
