

Actions call for an end to ICE, DHS and CBP after 20 years of terrorizing communities

Image not found or type unknown

Demonstrations took place across the country marking 20 years of harm by ICE, the Department of Homeland Security, and Customs and Border Protection. Organizers are calling for an end to government funding for the agencies, which over the past two decades have systematically

targeted immigrants, Muslims and communities of color, using surveillance, detention, torture, military occupation and inhumane immigration policies.

Washington, March 5 (RHC)-- Demonstrations took place across the country marking 20 years of harm by ICE, the Department of Homeland Security, and Customs and Border Protection. Organizers are calling for an end to government funding for the agencies, which over the past two decades have systematically targeted immigrants, Muslims and communities of color, using surveillance, detention, torture, military occupation and inhumane immigration policies.

Dr. Maha Hilal from the Muslim Counterpublics Lab speaking at the protest in Washington, D.C. said: "DHS has surveilled, detained, tortured and punished communities with draconian immigration laws. ... DHS has also targeted Black Lives Matter activists, created and spearheaded a Countering Violent Extremism program to target Muslim communities, ... tearing families apart, putting people in cages and executing foreign nationals across the border."
