Secretary of Russian Security Council considers NATO part of Ukraine conflict

Havana, March 27 (RHC) The secretary of the Russian Security Council, Nikolai Patrushev, declared this Monday in Moscow that the North Atlantic Treaty Organization (NATO) is a party to the conflict in Ukraine and intends to defeat and dismember Russia.

The senior official expressed in an interview with the Rossiskaya Gazeta newspaper that this military alliance will be one of the main actors in the "Summit for Democracy" convened by Washington for the end of March.

According to Patrushev, NATO turned Ukraine into a military camp, to which they send weapons and ammunition, provide intelligence data, including through satellites, and supply a significant number of drones.

The secretary of the Russian Security Council explained that the instructors and advisers of the Atlantic alliance train the Ukrainian military, while the mercenaries fight as part of neo-Nazi battalions. (Source: Prensa Latina)
