Washington, August 14 (RHC)-- In the U.S. Congress, Democrats have renewed their calls for Supreme Court Justice Clarence Thomas to resign, following yet another bombshell report from ProPublica detailing even more lavish gifts from right-wing billionaires, including "38 destination vacations."

California Congressman Ted Lieu said Thomas had “brought shame upon himself and the United States Supreme Court. ... No government official, elected or unelected, could ethically or legally accept gifts of that scale. He should resign immediately.”
