

Baseball 5: Cuba defeats Mexico and will discuss title against France

Image not found or type unknown

Havana, October 14 (ACN) -- The Cuban Baseball 5 team beat Mexico seven runs to one today in the closing of the Super Round and will discuss tomorrow, Sunday, the title of the competition against France, based in Ankara, Turkey.

The undefeated Cubans scored six hits and committed three defensive errors against the Mexicans, who accumulated seven hits and one error.

According to the schedule, the French will meet China today in the second round of the best six teams of the championship, but in a match that regardless of the result does not affect the progress of the French to the final against the Caribbeans.

Although the French have shown a good level, the largest of the Antilles is the favorite to win the crown, since they defeated them two sets to zero in the group stage.

Saturday's schedule is completed with Turkey and Taipei of China.

Taking into account only today's result of Cuba, their team remains the leader, now with five successes and no setbacks, followed by France (3-1), Mexico (2-3) and Türkiye (2-2) and as of Friday eliminated China (1-3) and Chinese Taipei (0-4).
