Gaza City, November 20 (RHC)-- Israeli air raids have killed dozens of people, including children, in northern, central, and southern Gaza, Palestinian officials and media have said, as the besieged territory endures its 44th day of bombardment.

At least 31 people were killed in Israeli attacks on the Bureij and Nuseirat refugee camps in central Gaza, the Ministry of Health in the Hamas-governed enclave said on Sunday.

A woman and her child were also killed in strikes in southern Khan Younis city, Palestinian news agency Wafa reported. Israeli forces also shot dead two people, including a disabled man, during incursions in the occupied West Bank, Wafa reported.

Issam al-Fayed, a 46-year-old disabled man, was killed at the entrance of the Jenin refugee camp, while 20-year-old Omar Laham was killed at the Dheisheh refugee camp south of Bethlehem, Wafa said.

At least 50 people were killed in an attack on Al Fakhoura school in the Jabalia refugee camp on Saturday, Gaza's Health Ministry said, while dozens of casualties were reported from an attack on a second school in Tall az-Zaatar.

"The scenes were horrifying. Corpses of women and children were on the ground. Others were screaming for help," Ahmed Radwan, a wounded survivor of Al Fakhoura attack, told The Associated Press news agency.

"Dead bodies [are] scattered ... pieces of flesh", an unnamed witness told Al Jazeera. "No one can recognise their sons. Our life is hell."

Marwan Bishara, a senior political analyst for Al Jazeera, said Al Fakhoura school could be described as the "al-Shifa of schools" as it has been repeatedly hit by Israeli forces like al-Shifa Hospital, Gaza's largest medical facility, which has been a major target of Israel's military campaign.

"There is nothing discriminate about the fact that a school that shelters thousands of people has been bombed from the air; that is meant to create damage, human loss, suffering and death," Bishara said.
