Gaza City, November 22 (RHC)-- Doctors Without Borders said two of its doctors were killed in an Israeli strike on the Al-Awda Hospital.

Doctors Mahmoud Abu Nujaila and Ahmad Al Sahar were killed alongside their colleague Dr. Ziad Al-Tatari.

Doctors Without Borders said it has repeatedly told Israel it is a functioning hospital, and shared its GPS coordinates with Israeli authorities one day before the deadly attack.

Reports say there are still some 200 patients at Al-Awda.
