Havana, December 9 (RHC)-- Cuban Foreign Minister Bruno Rodriguez used his X (formerly Twitter) account to condemn Washington's lone "no" vote against a UN Security Council resolution on Friday, calling for a humanitarian ceasefire in Gaza.

The top Cuban diplomat said: "A new shameful decision by the U.S. to veto a resolution in the UN Security Council, co-sponsored by at least 97 delegations in less than 24 hours, demanding an immediate humanitarian ceasefire in the Gaza Strip."
