

Israeli occupation forces bomb and raid Nasser Hospital in Khan Younis

Khan Younis, February 15 (RHC)-- Israeli occupation forces have bombed and raided Nasser Hospital in Khan Younis, which the World Health Organization has described as the “backbone of the health system in southern Gaza.”

The raid comes a day after Israel ordered thousands of displaced Palestinians and patients to evacuate.

One doctor inside the hospital recorded an audio message from inside the hospital on Wednesday.

The audio says: “And now the drones’ speakers, they’re announcing for all doctors inside the hospital to move outside the hospital. Israeli soldiers and tanks are surrounding the hospital from all sides. Shootings and bombings still continue.”
