New York, March 15 (RHC)-- In New York City, nearly 100 activists were arrested Thursday after occupying the lobby of The New York Times in the latest protest against the paper's coverage of Israel's war on Gaza.

One man was filmed harassing a group of the protesters and ripping away a banner that read “Lies.” This came just hours after a separate early-morning protest which blocked trucks from accessing and picking up newspapers at the Times’s printing facility in Queens.

Some of the demonstrators laid out a pile of rubble on the road and placed a sign that read “Consent for genocide is manufactured here.”
