# At least 80 killed in Gaza during past 24 hours as Israel continues genocidal campaign against the Palestinian people
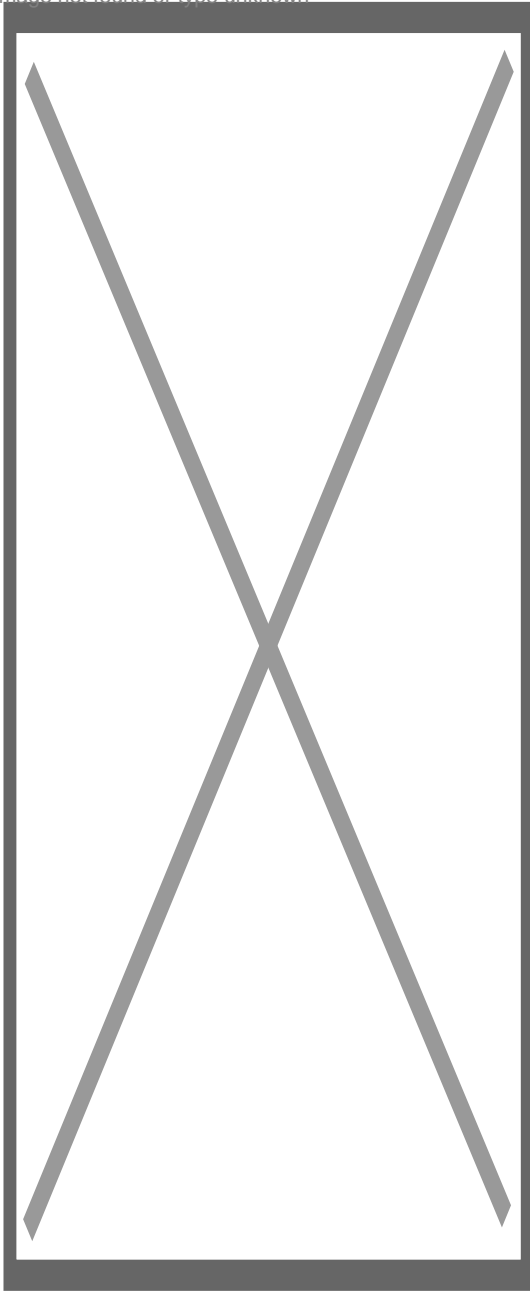

Gaza City, April 1 (RHC)-- Palestinian officials say around 80 people have been killed in the Gaza Strip in the last 24 hours, as the Israeli regime continues its nearly six-month-old genocidal campaign against the besieged territory.

The Gaza Health Ministry said on Sunday that nearly 32,800 Palestinians have been killed since the start of the war, including 77 whose bodies were brought to hospitals over the last 24 hours.  It added that most of them were killed in fresh Israeli attacks on aid seekers near Gaza City.

An Israeli airstrike also hit a tent camp in the courtyard of the al-Aqsa Martyrs Hospital in Deir al-Balah in Central Gaza, killing four Palestinians and wounding another 17.  Thousands of displaced Palestinians

have been sheltering in several tents in the yards of the medical complex for months, as the Israeli regime has escalated its deadly aggression on the blockaded territory.

The ministry further underlined that during three weeks of siege on the al-Shifa hospital, Israeli forces have killed hundreds of civilians in and around the medical facility.

Gaza's media office says more than 400 people have been killed during Israel's 13-day attack on the al-Shifa Hospital.  It also noted that some 100 Palestinians are still trapped inside the hospital under inhumane conditions while the occupying regime has destroyed over 1,000 nearby homes.

On March 18, heavily armed Israeli forces stormed the al-Shifa hospital using tanks and drones, as well as firing at people inside the complex.

The deadly raid has been going on for three weeks now, with the occupation troops laying siege on the hospital and targeting those trying to flee.  Israel has been targeting hospitals in the strip since the beginning of its war on Gaza in early October last year, claiming Hamas uses them as command centers. Hamas officials have strongly rejected such claims.
