

Palestinian doctors uncover new mass grave at Al-Shifa Hospital in wake of Israeli siege

Image not found or type unknown

Rafah, April 17 (RHC)-- Doctors have uncovered a new mass grave at the decimated Al-Shifa Hospital in Gaza.

The bodies clearly belonged to patients, as some still had medical bandages and catheters attached to their dead bodies.

Hundreds of bodies have been recovered from the Gaza City hospital grounds since Israeli troops ended their deadly siege on April 1st.

Attacks on health facilities, medical staff and patients are considered war crimes and crimes against humanity.
