Caracas, May 27 (RHC)-- The Secretary General of the Bolivarian Alliance for the Peoples of Our America-People's Trade Treaty (ALBA-TCP), Jorge Arreaza, declared on his X account that the "images that come from the refugee camps in Rafah are Dantesque."

"Decapitated children, charred bodies of innocent people, blood and pain everywhere," he commented.

"The world, the people in the streets and on the networks, must stop this anti-human barbarism," he said.

Arreaza expressed that time and again the member countries and social movements of the ALBA-TCP "have condemned the obvious and cruel genocide committed by the Zionist State of Israel in Palestine."

"Let's stop Israel's ruling elite and their accomplices now!" (Source: Prensa Latina)
