Geneva, June 1 (RHC)-- Humanitarian groups are condemning an Israeli bill to designate UNRWA as a terrorist organization.

Doctors Without Borders called the legislation “an outrageous attack on humanitarian assistance, and an act of collective punishment against the Palestinian people.” The group added that the bill, which is making its way through the Israeli parliament, would “amount to a free license to attack UNRWA facilities and its humanitarian personnel.”

The United Nations revealed that aid to Gaza had dropped 67% since May 7th as Israel launched its invasion of Rafah.
