

Newly-released video shows Hamas ambushes of Israeli forces in Gaza

Image not found or type unknown

Gaza City, June 29 (RHC)-- Media sources inside Gaza have released a video showing heavy fighting between Hamas fighters and Israeli occupation troops in the Strip.

Our colleagues at Al Jazeera Arabic have verified and shared a video said to feature a compilation of ambushes by Hamas fighters on Israeli forces in the Gaza Strip.

The video appears to show Hamas fighters using their combat tunnel network in Gaza and preparing large antitank mines and hiding them in locations to ambush Israeli armoured vehicles and ground forces. A burning tank is seen in one clip.

The footage also appears to show the extensive use of video camera surveillance of Israeli forces in Gaza, casualties inflicted on ground troops, as well as Israeli military equipment recovered by Hamas fighters.
