Image not found or type unknown

Havana, July 9 (RHC)-- On December 7, 2023, Cuba published in its Official Gazette a group of people and organizations subject to criminal investigation for their involvement in the promotion, planning, organization, financing, and support of terrorist actions against the Cuban people.

Cuba stated at that time that it has strong evidence to ensure that those who appear on this list are terrorists and deserve persecution and feel the weight of the law. Two days later, on December 9, we showed the first elements of an operation organized from the United States, directed and financed by some of the terrorists and organizations included on the list.

We bring the details in this broadcast, obtained as a result of a deep investigation carried out by the state security bodies accompanied by control, that control exercised by constitutional mandate by the Attorney General's Office of the Republic. The research results are based on advanced techniques and also on procedures of high scientific rigor.
