Madrid, October 25 (RHC)-- In Spain, over 300 academics, entertainers and artists, including the directors Pedro Almodóvar and Isabel Coixet, have signed on to a letter calling on Spanish Prime Minister Pedro Sánchez to enact a full arms embargo on Israel.

An excerpt of the open letter reads: "As long as Spain maintains military relations with Israel, it will continue to be complicit in this massacre."

Prime Minister Sánchez has said Spain halted its weapons trade with Israel since October of last year, but investigations have revealed some military exports have still gone ahead.
