Tel Aviv, November 16 (RHC)-- The New York Times is reporting aides to Israeli Prime Minister Benjamin Netanyahu are being investigated for altering official records of a phone call by a top general who warned of the Hamas attacks on the morning of October 7, 2023.

The probe suggests Netanyahu may have been informed of the attack before it happened, which he has denied. Over 1,100 people were killed in the Hamas attacks.

In the more than 13 months since, Israel has killed over 43,000 Palestinians in Gaza, though some estimates put the true death toll at over 300,000.
