Israeli forces attack so-called Safe Zone in Gaza and again assault Kamal Adwan Hospital

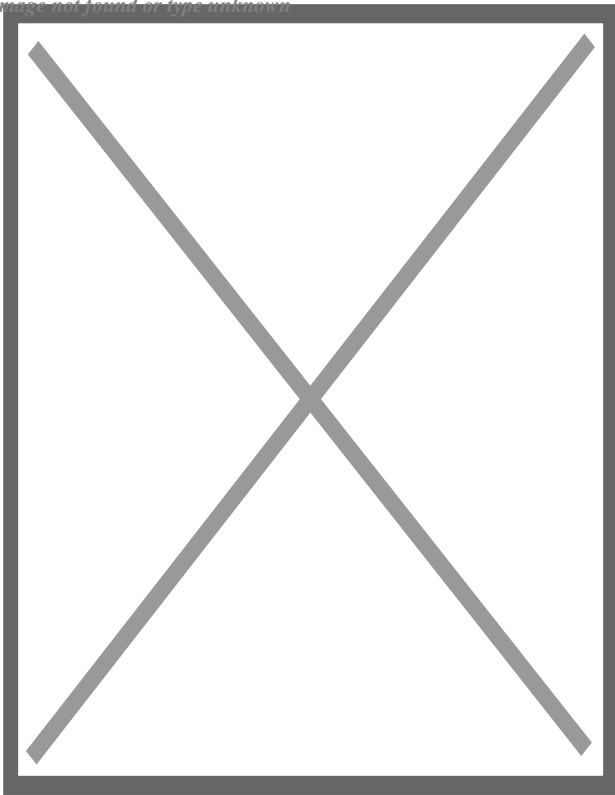

Gaza City, December 18 (RHC)-- In Gaza, Israeli troops backed by armed drones have attacked the al-Mawasi refugee camp, which Israel had designated as a so-called humanitarian safe zone.

Elsewhere, Israeli strikes have killed at least 10 people in Gaza City, while in northern Gaza, Israel has once again targeted the Kamal Adwan Hospital, knocking out the power generators, deploying explosive robots and planting booby traps around the hospital grounds.

The head of the World Health Organization, Tedros Adhanom Ghebreyesus, condemned Israel's assault, writing: "Recent attacks have further damaged the oxygen supply, generators, and broken windows and doors of the patients' rooms. The conditions in the hospital are simply appalling. We urge for the

protection of health care and for this hell to stop! Ceasefire!"
