Nuuk, December 25 (RHC)-- Greenland is not for sale. That's the message from Greenland's prime minister after President-elect Donald Trump said it is "an absolute necessity" for the United States to own and control the territory, which is legally part of Denmark.

Greenland's prime minister said: "Our country's sovereignty and independence are not negotiable. Greenland is ours. We are not for sale and will never be for sale. We must not lose our long struggle for freedom."
