A large, thick gray 'X' is drawn over a white rectangular area. The 'X' is composed of two diagonal lines that intersect in the center. The white area is bounded by a thick gray L-shaped line on the left and bottom, and a thin gray line on the top and right. The text 'Image not found or type unknown' is located in the top-left corner of the white area.

Gaza City, January 14 (RHC)-- Relentless Israeli air and artillery strikes continue to devastate Gaza, as about 70 children have been killed in the past five days alone in northern Gaza.

According to the Gaza Media Office, nearly 5,000 Palestinians have been killed or gone missing in the ongoing Israeli onslaught on northern Gaza over the past 100 days. A medical source told Al Jazeera on Sunday that another 9,500 Palestinians were injured in the Israeli military offensive in the north that was launched in early October.

Gaza's Government Media Office on Sunday called the Israeli siege "the most horrific form of ethnic cleansing, displacement and destruction."

Reporters said north Gaza is now a "ghost area" of vast destruction and rubble. "We are seeing Palestinians being systematically targeted in every single place across the Gaza Strip. It doesn't matter where you are – if you're in a school, a shelter, a makeshift camp or even a hospital," she said.

The Palestinian resistance movement Hamas said over the past 100 days, "The people of north Gaza have endured horrific scenes of killing, ethnic cleansing, destruction, and displacement."

Even hospitals were not spared. Kamal Adwan Hospital was torched and destroyed by Israeli forces in late December as part of the siege.

In one of the strikes on Sunday, at least five people were killed and several others injured when Israeli warplanes bombed a Palestinian home in the al-Shuja'iyya neighborhood, east of Gaza City.

An earlier strike claimed the life of at least one Palestinian near the Nuseirat refugee camp in central Gaza. Israeli artillery also shelled several areas across Gaza, leading to an unknown number of casualties.

Israel launched its genocidal war on Gaza in October 2023. It has so far claimed the lives of 46,565 people and injured over 109,000 others.
