Gaza City, February 21 (RHC)-- The Israeli military has dropped leaflets over the Gaza Strip, threatening the Palestinians there with another genocide if they do not give in to the regime's demand to leave the territory.

Reports said the leaflets, featuring the images of Israeli prime minister Benjamin Netanyahu and U.S. President Donald Trump, were distributed on Thursday in a bid to cause psychological distress among Gaza's civilian population.

"The map of the world will not change if all the people of Gaza disappear from existence, and no one will ask about you," the leaflets read. They also warned that U.S. President Donald Trump's "mandatory plan" to forcibly displace people from Gaza will be enforced "whether you accept it or not."

"Neither America nor Europe care about Gaza in any way," they read. "Even your Arab countries, which are now our allies, provide us with money and weapons while sending you only shrouds."

The leaflets also promised assistance to the Palestinians if they collaborate with the occupying regime. "We have decided to make one final appeal to those who wish to receive aid in exchange for cooperating with us. We will not hesitate for a moment to provide assistance."

Recently, Trump announced his intention to forcibly relocate two million Palestinians from Gaza into neighboring Jordan and Egypt, saying the US will "take over" and "own" the territory. The controversial scheme that effectively endorsed the ethnic cleansing of Palestinians sparked condemnations worldwide.

This latest threat came after the Geneva-based Euro-Mediterranean Human Rights Monitor said Israel has employed drones as a psychological weapon to instill fear and intimidate Palestinians in the Gaza Strip.

The group posted a video on X platform, which documented alarming instances of Israeli quad copter drones broadcasting recorded threats to civilians, warning of potential further displacement and destruction.

One particularly chilling message relayed from the drones ominously stated: "If you do not wake up from slumber, they will bring a second and third Nakba upon you" and then a siren of an ambulance is heard.

The Nakba or Catastrophe was the ethnic cleansing of 800,000 Palestinians from their land, when Israel created its own state in Palestine in 1948. Since then, around 530 Palestinian towns and villages have been wiped off the map by the Israeli brutal regime.

Israel unleashed a genocidal war on Gaza on October 7, 2023, after the Palestinian Hamas resistance group carried out a historic operation against the usurping entity in retaliation for its intensified atrocities against the Palestinian people.

Israel was forced to agree to a Gaza ceasefire after the regime failed to achieve its objectives of freeing captives and eliminating Hamas despite killing at least 48,319 Palestinians, mostly women and children. The Tel Aviv regime accepted Hamas's longstanding negotiation terms under the Gaza truce, which began on January 19.

The U.S. has rushed billions of dollars in military aid to the criminal Zionist regime throughout the Gaza offensive.
