

Chilean Business Mission to Visit Cuba

Havana, November 6 (RHC)-- A delegation of 50 Chilean entrepreneurs will visit Cuba later this month to learn first hand about business opportunities offered by the new Cuban Investment Law.

Chilean Ambassador in Havana Gonzalo Mendoza told the press that his country is interested in broadening and strengthening bilateral trade exchange. He stressed that the government of President Michelle Bachelet wants to restore the balance of bilateral trade, meaning increased exports to and imports from the Caribbean island nation.

Upon inaugurating the Chilean stand at the 32nd Havana International Fair 'FIHAV 2014', Mendoza stressed that the upcoming visit here of the Chilean entrepreneurs further demonstrates the confidence of the Chilean business sector in the ongoing process to update the Cuban economic model.
