A few days to represent Cuba in the Caribbean Baseball Series, current Cuban national champion Pinar del Río gave a blow of authority in the Cuban baseball series to complete a slide over leader Matanzas with a 7-3 win on Thursday.

Russia to Appoint Deputy Minister to Fight Doping

The Ministry of Sports of Russia will soon have a deputy minister in charge of doping issues.

Sports Minister Vitaly Mutko explained the future deputy minister will be responsible for the independence of the system at the Russian Anti-Doping Agency (Rusada).

The president of the Russian Athletics Federation, Valentin Balájnichev, said he is willing to resign, but only after scandals with Russian athletes are resolved.

News reports two days ago said Olympic walk champions Valeri Borchin Sergei Kirdiapkin and Olga Kaniskina and world medalists Sergey Bakulin and Vladimir Kanaikin were disqualified for violating anti-doping rules.

The punishment of the athletes was motivated by abnormal deviations of blood rates in their biological passports.

Meanwhile, the International Association of Athletics Federations (IAAF) announced that it will redistribute the titles won by Russian marchers when it finishes analyzing all the documentation.

The number of doping cases in the Russian athletics in general and especially in the marching event, is a concern for the IAAF, and the federation is said to be investigating all these situations.

Birmingham, Alabama, to Host the World Games 2021

World Games 2021 will take place in Birmingham, in the U.S. state of Alabama. This decision was announced by José Perurena, President of the International World Games Association, at noon on Thursday, 22 January 2015, at a press conference in the Mövenpick Hotel in Lausanne.

During meetings this week, the IWGA Executive Committee had made a final assessment of the Bids from Birmingham (USA), Lima (Peru) and Ufa (Russia), and evaluated the delegations' final

presentations. The IWGA Executive Board took the final decision on the host city for the 11th edition of this multi-sports event at its meeting on Thursday morning.

This announcement is subject to successful negotiation of contractual conditions, and subsequent confirmation by the IWGA's Annual General Meeting (AGM) in April 2015. The agreement with the next host city will be signed right after the AGM. The 10th edition of The World Games will be staged in 2017 in Wroclaw Poland. The IWGA flag will be handed over to the representatives of Birmingham during the closing ceremony in Wroclaw on 30 July 2017.

Giving reasons for the decision in favour of Birmingham/Alabama, President José Perurena mentioned the excellent bid presented by the host city. "We are happy to showcase our sports in Birmingham in July 2021, and we are sure that we will be offered optimal conditions for our sportsmen and women there. All the bids we received were of very high quality, and it was not easy for us to reach a decision. We have to deliver nothing less than outstanding World Games. We are convinced that Birmingham will exceed these expectations." José Perurena stated.

Birmingham offers all prerequisites to stage an event like The World Games. The IWGA President added. This refers not only to the required sporting venues and infrastructure. The city also meets expectations in terms of organizing skills and the support of the city administration and the National Olympic Committee.

So, after Santa Clara 1981, the inaugural edition, The World Games will return to the USA. Birmingham is the largest city in Alabama, with more than 210,000 residents. It will be the first time that the city hosts an international multi-sport event.

The bidding process had been started by the IWGA in early 2014. Birmingham (USA), Lima (Peru) and Ufa (Russia) applied to host the 11th edition of The World Games.

The World Games, first held in 1981, are an international multi-sport event, meant for sports, or disciplines or events within a sport, that are not contested in the Olympic Games.
