

Memories Adds New Cuba Resort

Havana, Mar 27, (RHC), – Blue Diamond has taken over management at the former Breezes Jibacoa resort under its Memories brand, the company said in a press release.

“Designed with families with older children and couples in mind, this 16 years plus resort is located between the rich, cultural treasures of Havana and the lively center of Varadero,” the company said in a release.

The property is located near the popular Varadero destination, where Blue Diamond Hotels and Resorts has two other properties: the Royalton Hicacos and the Memories Varadero Beach Resort.

Memories Jibacoa has a total of three specialty restaurants, one international buffet, five bars and a swimming pool, among other amenities.
