

Human Rights Body Submits Report of Israeli War Crimes to International Criminal Court

Paris, April 1 (RHC)-- The International Federation for Human Rights (FIDH) has submitted a detailed report to the International Criminal Court (ICC) slamming Israel for war crimes and crimes against humanity during its devastating military onslaught on the besieged Gaza Strip last summer.

The organization, the first international human rights NGO to have gained access to the Gaza Strip since the ceasefire was agreed in August 2014, also asserted in its report that the indiscriminate firing of rockets by Palestinian armed groups, causing civilian deaths, may also amount to international crimes.
