

At Least 40 Killed in Saudi Raids on Yemeni Capital Sanaa

Sanaa, April 21 (RHC)-- At least 40 people have been killed and 547 more injured as Saudi jets target a missile depot in the Yemeni capital city of Sanaa. Earlier reports of the Monday attack on the missile depot in Faj Attan district, located on the outskirts of the capital, had put the death toll at 18.

The explosions shattered nearby windows and sent a huge mushroom cloud of smoke into the sky, besides causing massive damage to the surrounding area. The site has been attacked several times during the four-week Saudi air campaign, with a Yemeni official saying that the air raids are destroying the landscape of the mountainous region.
