

Biopharmaceutical Fair Opens in Cuba

Havana, June 19 (RHC) -- The trade fair "Biopharmaceutical Products: Challenges of the Third Millennium" will open as part of activities of the 16th International Congress of the National Center for Scientific Research (CNIC 2015), that will soon hold sessions in Havana.

The development in Cuba of a group of vaccine candidates against infectious diseases will be one of the fundamental topics at the international congress that will take place from June 22nd to 26th.
