

Argentina Denounces OAS's Interference in the Country's Electoral Process

Buenos Aires, October 24 (RHC)-- The Argentinian government has denounced that the so-called 'public hearing' organized by the Inter-American Commission on Human Rights is a clear political maneuver that interferes with elections tomorrow, Sunday, in Argentina.

Argentinian Foreign Minister Héctor Timerman issued a communique, describing as unacceptable and unjustifiable the hearing organized by the OAS human rights commission to presumably evaluate judicial independence in Argentina.

The Argentinian foreign minister said the move is a clear political and propaganda campaign orchestrated by opposition sectors.
