

Brazilian Company Odebrecht Expands Operations in Cuba

Havana, February 2 (RHC)-- The Brazilian Odebrecht Infrastructure Works Company will increase operations in Cuba after receiving authorization from local authorities to become a user of the Special Development Zone in the western Mariel Bay area, plus another two contracts in the sugar and civil aeronautical sectors.

The Brazilian company was officially notified in January that it could operate in Mariel, offering engineering and construction services to potential investors under a 15-year license, which can be extended.
