

Ecuador Seeks Regional Consensus on Oil Production

Quito, Mar 30 (RHC) Ecuador Oil Minister, Carlos Pareja, said he will travel Wednesday to Colombia and Mexico to arrange a meeting in Quito of Latin American oil producers.

Pareja said Venezuela already agrees, and with consent from Mexico and Colombia, they could invite other Latin American producers with the main goal of approving a standard oil price, and submit it as regional agreement to the Summit of the Organization of Petroleum Exporting Countries (OPEC) in Qatar on April 17.
